

**EarnMyDegree.com Receives a Complete Makeover for 2009,
Just in Time to Help People with New Year's Resolutions**

*New website at www.EarnMyDegree.com is more user friendly and includes
new sections on careers and campus schools*

Hoboken, New Jersey (January 21, 2009)—EarnMyDegree.com today announced its complete overhaul of <http://www.EarnMyDegree.com>, with new career and campus sections. The campus section includes information on every college campus in the United States, totaling more than 7,000 schools. The new [EarnMyDegree.com](http://www.EarnMyDegree.com) site debuts as many people continue to work on their New Year's resolutions. A common resolution every year is to learn something new. Whether searching for degrees or classes, every visitor will find valuable information in the 20,000+ pages created by EarnMyDegree.com. The site is packed with in-depth information and it's all in a new easy-to-use format.

"Every year it's nice to start fresh, set goals and then watch those goals come true. At EarnMyDegree.com our New Year's resolution was to provide a one-stop resource to help as many people as possible go back to school and this site is a great step. The complete makeover of EarnMyDegree.com makes it a simple-to-search site that helps everyone thinking about returning to school find the program that best matches their personal needs," said Rob Peyree, EVP Client Relations, of EarnMyDegree.com.

According to a report by Eduventures, the Department of Labor found that 90% of the fastest-growing jobs in the U.S. require some type of postsecondary education. This shows that now more than ever it is vital to have a college degree to get ahead and stay ahead. At [EarnMyDegree.com](http://www.EarnMyDegree.com), people can search for classes by degree subject, degree level and type of school (e.g. online or on campus). The site features thousands of accredited online college programs and traditional schools. Most of the degrees are designed with working professionals in mind, making it easy to take classes and not interrupt work.

In addition to being able to search through hundreds of degree programs from accredited online colleges and traditional schools, visitors to the revised EarnMyDegree.com site (<http://www.EarnMyDegree.com>) now can also access:

- **[Career Information and Statistics](#)** – This section includes nearly 1,000 popular occupations, across 23 industries with in-depth information including: job descriptions, salary information, projected career growth, work tasks and activities, job education and training required, and much more.
- **[On-Campus Education](#)** – This section has information and statistics on every college campus in the United States and outlying areas, totaling more than 7,000 schools. Some of the information visitors will find includes student body statistics, tuition and fees, and institution facts (e.g. distance learning opportunities, size, etc.)
- **Interactive User Features**
 - Ratings & Reviews – Visitors to EarnMyDegree.com are able to rate and review degree programs and view other students' opinions on schools and programs.

- Ask & Answer – Visitors to EarnMyDegree.com can post questions that pertain to any degree or school-related topic. EarnMyDegree.com staff will promptly answer the posted questions.

“We understand that going back to school isn’t an easy decision and is often incredibly overwhelming, that’s why we’ve put all the research prospective students need into one comprehensive and user-friendly site. Hopefully this will help make ‘09 resolutions come true,” continued Peyree.

Since the launch of EarnMyDegree.com in May 2003, the site has successfully connected more than three million students to the adult online education programs of their choice. For more information on EarnMyDegree.com and to search for degree programs, schools, courses and classes, visit <http://www.earnmydegree.com>.
