

Your institution is already dedicated to providing a quality education. EducationDynamics can help ensure your faculty, curriculum, and classroom experience fully support and deliver on your mission.

SERVICES:

PROGRAM PRE-EVALUATION AND MARKET ASSESSMENT

- Review existing research findings and data to determine new program offerings and market viability

ASSESSMENT OF STUDENT LEARNING AND CLASSROOM EXPERIENCE

- Create, review and assess evaluation processes for course effectiveness
- Develop a system of student evaluation to measure student learning across all online programs
- Create End-of-Course evaluations for faculty to solicit student input/feedback on curriculum, online learning management system responsiveness, IT support, administrative support, and other faculty resources and materials
- Create a program-specific curriculum review cycle for program relevancy, effectiveness and learning outcomes

FACULTY TRAINING AND DEVELOPMENT

- Create or evaluate existing pedagogy training for new and tenured faculty teaching in online/hybrid modalities
- Create or evaluate existing faculty development resources that meet the needs of both new and existing faculty in online/hybrid learning modalities and programmatic offerings of the college/university
- Create a formal faculty performance review matrix to measure excellence within the online classroom
- Build a faculty evaluation process for determining competencies related to excellence in the online classroom
- Create a faculty incentive plan to enhance local campus and online pedagogy practices, as well as faculty engagement
